

We need your help

Imagine having to go through with an unwanted pregnancy because you did not have the money for an abortion.

Women who do not have a valid Ontario health card and are not covered by other health insurance, must pay \$400 for their abortion procedure.

This means that many immigrant or refugee women who have not had their status in Canada finalized sometimes have to cancel their appointments because they are unable to raise the money.

These same women cannot afford to purchase the birth control methods that will allow them to prevent future unwanted pregnancies.

Together we can help. At Choice In Health Clinic we have started an Access Fund that enables all women, regardless of their immigration or financial status, to control their reproductive health. To ensure that this help remains available to all women, we are asking for your help.

Please give what you can. All donations are greatly appreciated.

I would like to donate:

\$10 \$25 \$40 \$60 \$100 Other Amount: _____

Please make your cheque or money order payable to: Choice In Health Clinic and indicate "Access Fund" in the memo line.

Thank you for your generosity and support!
